

## Quarterly Recordable Environmental Incident Report

Nil Incident Report <input type="checkbox"/>					
<b>Interest holder Name:</b>	Sweetpea Petroleum Pty Ltd	<b>Title holder and Business address</b>	Sweetpea Petroleum Pty Ltd, fully owned subsidiary of Tamboran Resources Ltd 110-112 The Corso, Manly NSW 2095 ABN 28 135 299 062	<b>Title of the Environmental management Plan for the activity</b>	Civil Construction and Water Bore Environment Management Plan (SWP 2-3), Beetaloo Sub-basin, NT.
<b>Activity</b>	Civil Construction and Water Bore Drilling	<b>Quarter, Year</b>	Q2 (ending June, 2022)	<b>Title details (e.g Exploration License no. Production License no.)</b>	EP136

Summary of Recordable Environmental Incident Report				
<b>Incident date and time</b>	<b>All material facts and circumstances</b>	<b>Environmental outcome(s) and/or performance standard(s) breached or environmental impact or risk not specified in Approved EMP</b>	<b>Immediate action taken to avoid or mitigate any adverse environmental impacts of risk of the incident, including actions to stop or control the incident</b>	<b>Corrective action taken, or proposed, to prevent similar incident occurring in future</b>
29 May 2022 <i>(Afternoon)</i>	The 6" pump located in the road corridor at the NTG bore location was inspected by a representative of the land holder. The representative noticed some seeds attached to the pump. On review, it	Section 7.3.3-1 No introduction of new or spread of existing Weeds of National Environmental Significance, weeds listed under NT legislation or	<b>Immediate action</b> The pump was removed from the area and taken to the Highway Inn for a washdown as a precautionary measure and as a show of good faith with the landholder.	<b>Corrective action</b> After washdown, the pump was returned to the NTG roadside bore location and run into the NTG bore. <b>Proposed preventive action</b>

# Quarterly Recordable Environmental Incident Report

Summary of Recordable Environmental Incident Report				
Incident date and time	All material facts and circumstances	Environmental outcome(s) and/or performance standard(s) breached or environmental impact or risk not specified in Approved EMP	Immediate action taken to avoid or mitigate any adverse environmental impacts of risk of the incident, including actions to stop or control the incident	Corrective action taken, or proposed, to prevent similar incident occurring in future
	<p>was determined that the vegetation material did not become attached to the pump equipment during transit and was most likely locally sourced, i.e. there was no environmental incident in this instance but this was proactively reported as an incident while the investigation was underway.</p> <p>On 27th June, An escorted inspection of the civil works currently underway on EP136 was undertaken which included an inspection of access tracks, water bore drilling, gravel pits and camp accommodation was carried out at the EP136 by Weed management branch from DEPWS. The report concluded that no weeds were observed within the area where civil works were currently underway. Although, the road construction bore on the Carpentaria Highway used</p>	locally significant weed species.	<p><b>Impact</b> No environmental impact</p>	Contractors to continue to check and ensure equipment and vehicles are free of weed and seed prior to mobilisation and complete weed and seed declaration forms (this is a mandatory requirement prior to entering site).
