

# Holtze enabling infrastructure

## Part B Package 2 works

Dear stakeholder

Works to progress Part B, Package 2, of the Holtze enabling infrastructure project are expected to recommence the **week of 13 April 2026**, weather permitting.

The works involve further land clearing along the services corridor connected to the recently completed Linco Road extension, for construction of infrastructure to support future development in the Greater Holtze area. Works also include the installation of essentials services, such as power, water and sewerage assets to the west of Taylor Road properties.

These works may cause some temporary construction noise and dust in the area consistent with normal construction works. Mitigation controls will be implemented to reduce the impact of noise and dust.

The location of Part B works is shown on the map overleaf.

Stakeholders will continue to be kept informed throughout the construction period of any anticipated impacts.

For further information, please contact the project hotline **1800 920 260**, email [feedback@truenorthcomm.com.au](mailto:feedback@truenorthcomm.com.au) or visit [environment.nt.gov.au/lands-planning/projects](https://environment.nt.gov.au/lands-planning/projects)
